For day 43 I needed to learn something new. So I'm going to apply that learners mindset and I'm just going to go learn it. I went to RayWenderlich.com and started a SpriteKit tutorial. This is the tutorial that I'm using. I like this site because they've got really good tutorials that can show me things quickly when I need to learn a new technique. Tomorrow I'm jumping back into my project and start playing with it now.
