

## Transcript

Making some progress. So I'm getting the sheep where they start to have a lifecycle where we're tracking an age for them. I slowed down the rate sheep are moving a lot. I also put in a little bit and you'll see it at the bottom of the window. Where sheep starting to have baby sheep, and then they'll start to die off. Now, you don't see anything happening except the text at the bottom, but I got it to work.
