It's day 59. And I'm working through the tutorial, I'm learning a lot of cool new stuff, and really seeing some new things, and really excited about what I'm learning, getting to the things that will help me with my own project. And that's the cool thing with learning new stuff. You get to try something out, and you get to learn new things and pick up new skills. And it's exciting and it's new and a lot of fun. So this is where I'm at now. And I'm learning to do a lot of things that will help me with my project, and also seeing some other neat things like how to work with timers, and worked with the mouse and things like that and user interactions.
