Transcript

Hey so it's fun to get back to my project on day number 64 and get to put the counter in. So I had some successes and I had some things that didn't work well, but I got an idea of what I'm going to do. And that's again, what I love about coding is there's always a way to solve the problem. You just got to take a different approach. So as we can see, I've got the counter on there. It's not updating as the sheet die, but I'll work on that.
