Hey, it's exciting. I've made it all the way today 90 started on this journey, I had no idea where it would take me I was just gonna explore and enjoy the wonder and excitement and just see what happened. I had no idea that I would end up building an app on Twitter and journaling that process. On the way I got reacquainted with swift playgrounds. And then I learned a lot of new stuff and use some new tutorials from Ray Wenderlich. All along, I've learned a lot of new things, and I've had a lot of fun. I hope you've enjoyed it. And I hope it's helped you and it's inspired some others to take their own journey and try things out and be daring and do something new and take a risk. If you're not sure where to start. This is a great place. The tutorials are awesome. And they really help out and they're easy to follow along. You can't know everything, but you can find a lot of great tutorials at Ray Wenderlich that will help you find the things and learn what you need to. If you want to go back and look at any of this journey, I'm archiving all of it on my portfolio. you've enjoyed this journey as much as I have. Don't worry, I am going to finish the app and I will get it into the store and let people play with it. Got to work on a few things first, see you later. Have a great day.
